

2006 Epistle
Senior Young Friends
Intermountain Yearly Meeting

[At the business session, Senior Young Friends requested from Friends gathered there a spontaneous and random offering of verbs, adverbs, nouns, and adjectives. From these, the underlined words in the following letter were selected, and the letter was read after these responses were inserted.]

Drawn to another year of IMYM by the force of apples and the power of friends, the SYF joined again in the beautiful Ghost Ranch, New Mexico (US). It was a sandy year starting in the early dogs and continuing at full power through the week. The gathered days walked full of lots of game singing and the occasional trusting conversation. We were truthful to find that we had 50 SYF for the early days and were able to want even closer than some chimney rocks. When the yearly love started hungrily, we commenced our universal behavior, caring intergenerational worship, twirling, and sleeping very prickly. One night we paired up and looked into each other's compassions for a number of centuries. This was a slowly intense experience for all fun and observers. On Friday night we went on a camp out but there was no gopher so we had no lunch. Since we had to turn in our epistle so early Saturday morning, we didn't have time to play anything else.
