

Report of AHYM Ad Hoc Electronic Communications Committee
March 30, 2019

An ad hoc Electronics Communications Committee was appointed at the Fall AHYM Meeting, following up on the new AHYM website pages on the IMYM website. It met three times, between October and December, using Google Hangouts for video chats.

We first ascertained that all pages on the website are functioning. We discussed rules for the website and who should access it. In the attached policy proposal, we propose

1. A purpose for the website
2. Who can access it to make changes
3. Types of documents to be added
4. How long documents should be kept

We ask that AHYM approve of the suggestions in the policy proposal.

The committee has finished what it believes it was set up to do, and asks to be laid down. Committee members were Julie Brozio, Ed Kearns, Jane Kroesen, and Len Schulwitz.

Ed Kearns
Convenor
